SUMMARY

QA Engineer with 2+ years of hands-on experience in manual, functional, regression, and API testing for web applications, with growing expertise in test automation using Playwright and Selenium. Skilled in test case design, defect lifecycle management with Jira, and database validation using SQL. A collaborative team player with strong communication skills and a continuous drive to learn, seeking to deepen QA expertise through structured mentorship and real-world projects.

WORK EXPERIENCE

Junior QA Engineer, Zuvior Incorporation Private Limited **Jan 2025 - Dec 2025**

- Analyzed requirements and created test cases, test scripts, and test scenarios for web applications.
- Performed manual testing, including functional, regression, and API testing across releases.
- Validated REST APIs using Postman and Swagger, verifying responses, status codes, and authentication.
- Conducted basic database validation using SQL to verify data integrity against expected results.
- Identified, documented, tracked, and verified software defects through resolution using Jira.
- Executed test plans, maintained testing documentation, and contributed to QA best practices in an Agile/Scrum environment.

QA Trainee, Into The Tech **2023 - 2024**

- Performed manual and automated testing using Katalon Studio to validate UI functionality and detect defects after updates.
- Created and executed test cases while performing UI, regression, and usability testing on web applications and digital content.
- Reported bugs and ensured quality of website layouts, design tools, and multimedia content across different platforms.

TECHNICAL SKILLS

- Testing: Manual Testing, Functional, Regression, Smoke & Sanity Testing, API Testing, UI Testing, Test Case Design, Test Scenario & Script Writing, Bug Life Cycle, Defect Tracking & Reporting
- Automation: Selenium WebDriver, Playwright, Katalon Studio (basic automation scripting)
- API Testing Tools: Postman, Swagger, REST APIs, API Authentication (tokens, status code validation)
- Database Testing: SQL, MySQL, MongoDB — data integrity and backend validation
- Tools & Platforms: Jira, Git, GitHub, Agile/Scrum ceremonies (standups, sprint planning)
- Programming Fundamentals: JavaScript, TypeScript, HTML, CSS (useful for understanding web apps under test and writing automation scripts)
- Methodologies: SDLC, STLC, Agile/Scrum
- Languages: English, Nepali

PROJECTS

Visacampus Consultancy website

Performed end-to-end manual testing of a study-abroad consultancy web platform covering student inquiry forms, appointment booking, document upload, and admin dashboard modules. Designed and executed 80+ test cases for functional, regression, UI, and cross-browser testing (Chrome, Firefox, Edge). Validated form input handling and negative scenarios including invalid emails, empty required fields, and file size/type limits on document uploads. Tested REST APIs for inquiry submission and booking confirmation using Postman, verifying response codes and payloads, and confirmed backend records against the database using SQL. Logged and tracked defects in Jira with severity and priority classification, and performed retesting and regression testing after fixes.
Tools: Postman, Jira, MySQL, Chrome DevTools

Goodwill Dry Cleaning

Tested a service-booking website for a dry-cleaning business, covering order placement, pickup/delivery scheduling, pricing calculation, and order status tracking flows. Created and executed test scenarios for functional, usability, and responsive testing across desktop and mobile viewports. Verified pricing logic and order totals against service rate rules, and validated booking confirmation emails and status updates. Automated the core user journeys (registration, login, order booking, and cancellation) using Playwright with assertions and HTML test reports, reducing regression testing time for repeat releases.
Tools: Playwright, Postman, Jira, GitHub

EDUCATION

Bachelor's in Computer Application

Kathmandu College of Technology — **Dec 2022-Present**
Major Subjects: C Programming, Microprocessor, Computer Architecture

NEB

Khwopa College — **Aug 2020 - Sept 2022**
Faculty: Management (Business Studies)
